

Resource Allocation Program

A collaborative effort among UCSF funding agencies

RAP Review Form

Cycle: Spring 2014

Applicant Name:

Proposal Title:

Grant Mechanism: **Team Science Grant**

Review Committee:

Reviewer's Name:

General Review (Please provide a one-page review) These comments **WILL** be shared with the applicant.

Please include comments for each of the following sections:

1. General critique and summary of the proposal.
2. Significance. Does the study address an important problem?
3. Approach. Are methods, study design and analysis appropriate?
4. Innovation. Is the study original and innovative?
5. Team Composition:
 - a. Is the strength and breadth of scientific expertise represented on the team complementary and sufficient to perform the research?
 - b. Is this a newly assembled team brought together for the purpose of this project?
 - c. Does the team provide a clear description of responsibility of team members and the organization of the team?
 - d. Does the team include investigator(s) that are diverse based on gender, ethnicity, race and other characteristics?
6. Environment/Departmental support. Is appropriate support available from department? Does the applicant(s) have access to the necessary tools?
7. Future potential. Is the research likely to lead to extramural funding?

8. Does the research move science along the translational spectrum? Are department chair or other unit head letters included for each PI?
9. Any question or concern about the budget? Note Faculty effort is limited to 10% total per project.
